- Have a good knowledge of site services including compressors, steam boiler and chillers.
- Be prepared to react to any situation that involves running a busy site including offices and warehousing.
- Have a good understanding of ac and dc motors and associated control circuits
- Work closely with a small maintenance team.
- Liaise with production managers.

What's expected:

- Achievement of Department KPI's.
- Knowledge of company objectives, department goals and KPI's.
- Ability to communicate effectively at all levels and work as part of a team.
- Awareness and Adherence of Health and Safety Policies.
- Knowledge of lean initiatives and participation in work groups.
- Positive Approach to change/flexibility, including 2 shift (double day shift) and weekend cover where required as overtime for production support.
- Is resilient, optimistic and open to change.
- Maintaining Good Housekeeping standards (6S).

Essential Experience\Qualifications Required:

- Served a full recognised apprenticeship to at least NVQ 3
- Multi skilled electrical and mechanical
- Have a good understanding of hydraulic and pneumatic systems
- Experience of planned preventative maintenance
- Experienced in fault finding
- Ability to read and understand drawings
- Have good general workshop skills
- Have a good understanding of health and safety
- Understand continuous improvement

Desirable:

- Good Understanding and Knowledge of PLC
- Boom/scissor lift licence. * FLT Licence.
- Basic MMA/MIG Welding and Fabrication Skills.
- Basic Machining Skills Manual Lathe / Milling machine.
